

Storm Riders

Storm Riders is a tale of how the wild west would look if the future came for a visit. Three destinies, three paths for each decision a person makes, but if one of the roads becomes tangled, a Storm Rider must step in and repair the rift before the dimensions collide. Samantha Skelley and Denny Randeli are sent to 1879 Bodie, California, one of the wildest towns of the west. It should have been an easy snatch and rescue, but Ace McTavish is determined to put himself in harms way. Samantha and Denny are forced to help him with his plans before they take the next storm ride home. Samantha and Aces attraction for each other sparks into forbidden territory, both knowing their relationship can never be. However, fate may surprise the star-crossed lovers and rewrite the passage of time.
